# 2nd Annual Oliver Family Angus Production Sale

June 28, 2016 • 7:00 PM EDT

**The Offering:**  
**2 Herd Bulls**  
**14 – Heifer Calves**  
**20 – Herd Sire Prospects**

**Terms:**

A deposit of 25% will be required at the time of sale. The balance due prior to delivery in September 2016

**Risk:**

Oliver family takes all risk on calves sold prior to load-out in September 2016. As soon as loaded for delivery, they become the risk of the buyer. Should any calves not be suitable for sale at load-out, Oliver Angus will take that calf back at the bid price.

**Delivery:**

Delivery is the responsibility of the buyer, however Oliver Angus and Brubaker Sales will work with the buyer to arrange trucking at a least-cost arrangement.

**Procedure:**

Sale will be conducted via conference tele-auction. Buyers will be required to contact Brubaker Sales at least one (1) hour prior to the sale to register to bid. Calves will be sold in pens at 2 times or 3 times the bid price. Cattle will be sold to the highest bidder. Buyers will have a choice of purchasing multiple pens at the bid price. Sale Order will start with Herd Sires, Heifers, and then Herd Bull Prospects.

**Buyer Registration:**

To register to be on the conference Tele-Auction call Brubaker Sales at 540/908-5799. Buyers will be given the conference call phone number and PIN number to access the auction. Please be sure to call no later than one (1) hour – 6pm EDT – prior to the auction.

**Registration Certificates:**

Registration Certificates will be provided to buyers at the seller's expense at the time of delivery.

**Retained Semen Interest:**

Oliver Angus will retain a 1/3 semen interest on all registered bulls.

**Health:**

All calves will be vaccinated prior to shipment and be accompanied with Interstate Health Papers

**Sale Book Prepared by:**

Oliver Family Angus, Brubaker Sales & Marketing LLC and Bluewood Design.

**Sale Managed By:**

**Ken Brubaker**

Friends,

Welcome to the 2nd Annual Oliver Angus Production Sale. Please allow this new annual gathering of friends serve as a testament to our late father, Ed Oliver. His years of hard work and dedication to improving the Angus breed are evident within the Oliver Herd and across the country. Dad could talk cattle for days on end and I don't think I've ever known a person with as much passion for the breed. But, he would be the first to tell you, cattle are simply a conduit. The friends and relationships built through this business are what truly matter. With this being said, I don't think there has ever been a more successful cattleman. He is dearly missed...Moving forward, his principles and lessons taught will be carried on with the next generation.

Dad took great pride in producing cattle that were adaptive to their environment with minimal inputs. His desire in doing so, was for breeders or commercial operators across the country to benefit from these genetics. Our cattle root back to old Wye Angus genetics, and over the years, his selection methods were rather simple. Ed Oliver was not trying to change the Angus breed but simply wanted a phenotypically consistent herd that produced year after year. He would always say; "change in this industry is the easiest thing to do, what is difficult, is to consistently produce the same quality year after year". He accomplished this by operating a closed herd of cattle since 1986. Cows either produced or they didn't remain here. If they remained, they were expected to wean an above average calf on a yearly basis. Frame score was never a topic of conversation to breach with dad. Rather, He would place emphasis on structural soundness, udder attachment, maternal instincts, disposition and longevity. His selection methods are evident within our herd today.

This year's calf crop is no exception to years past. As evidence to our female's ability to produce, we experienced a 100% survival rate this calving season. You will find a cross section of these genetics within this calf sale group. We thank you for taking the time to view this offering and we are confident that these genetics could help your operation as much as they have ours. As always, please feel free stop by for a visit. Friends are always welcomed.

On behalf of the Oliver Family,

Spence Oliver

May 1986 Angus Journal Cover

In Memory of Edwin Spencer Oliver & Simeon Hull Oliver

Dear Angus Breeders,

I knew Ed Oliver for many many years and considered him a great friend, teacher and mentor. He was also a Master Breeder of Angus cattle. I am pleased to work with the Oliver Family to continue his legacy of linebred Angus Genetics.

This Offering represents Ed's vision, patience and courage to take a great cow and infiltrate his her with her influence through her sons and daughters. Few breeders have shown the patience dealing with "mother nature" and sound genetic principles to create the product in these heifers, bulls and herd sires.

We are here to assist you, please do not hesitate to contact us for more information or selection. This is truly a unique opportunity in the Angus breed. An opportunity build upon real value in the real world.

Best Regards,  
Ken

# The “Art” of Linebreeding

## The Impact of a Great Cow

**O Miss Alap 2246-41**

The “41” cow and her full sister “40” have been the foundation in the Oliver program. She is the dam of Herd Sires “97” and “147”. She has a progeny WR 9@112 on a 373-day calving interval. She is a daughter of the \$28,000 Alap of Wye

**O Mr Banjo 41-147 Logo**

A son of the “41” cow, this Herd Sire is a massive and powerful Herd Sire. He is sired by the highly regarded “Banjo of Wye”. His influence sells throughout the offering as the sire or Grand Sire with several calves linebred to him.

**O Mr Casey 41-97**

Another son of “41” by the \$14,500 “Clarkson of Wye” He blends “Favour” and the great Wye Pathfinder “6767” and the “41” cow. His influence can be found throughout the offering and you will find many calves that are linebred to this sire and his dam.

**O Miss 97-41-281**

She is the product of a son-dam mating. Sired by “97” and a direct daughter of “41”. She represents the future of the Oliver program. She demonstrates the power in this Gene pool and the ability for it to be linebred for consistency and prepotency.

**O Mr 147-142-305**  
Son of “147”

**O Mr 97-120-234**

This proven Herd Sire is a son of “97” and Grandson of “41”. He Sells as Lot 1

**Mr Spen 128-147-330**  
Son of “147”

- He possesses a pedigree rich in proven Wye blood with the likes of "Lonestar", "Alap", "Lodge" and "Framework".
- This bull ties up more proven Wye lines that you will find outside of the Wye herd.

**O Mr Banjo 41 147 Logo - Sire Lot 31**

**Edwin Spencer Oliver  
 Remarks on March 18, 2015**

- A Philosophy that says, "Line breeding without SELECTION is a dead end street."
- A philosophy that says, "The world is full of followers, but, few are travelers on the road less traveled." "The HIGHER ROAD of genetic predictability through line breeding."
- A philosophy that says, "The only way, under the sun, to create genetic purity, is through Line Breeding." "BULL OF THE MONTH BREEDING or changing bulls yearly to correct what last year's bull messed up," "IS JUST AS IT EMPLIES, (Bull compost)!"
- A philosophy that says, "I am not in a popularity contest and could care less if you are a breeder, PHD. or highly promoted EPD financial wizard....We are not impressed..." "We line breed cattle with a purpose in mind. That purpose is efficiency, consistency and predictability. If one likes what we have accomplished, FINE....If not....That is FINE also. We breed cattle that flourish under our modest conditions."

## Shoshone-Oliver Bulls

**Leonhardt 389**

Leonhardt 389 is the Matriarch of the Leonhardt/Oliver "A" Line of cattle. "389" was selected by Ed Oliver to create this superior functional line of cattle. This cow was brought from Wyoming to Southwest Georgia and acclimated to her new environment, never missing a calf.

The blending of her with the Oliver herd bulls "97" and "147" proved to be a special blending of true Aberdeen Angus blood. Her importance to the program is unmatched and if registration papers are not important to you – these bulls will add tremendous value in fertility, fleshing ability, udder quality and maternal function.
