

The Complete Angus Dispersal
DR Angus, Sidney, Montana

**Private Treaty Sale
of
Cow/Calf Pairs
Bred Heifers
Herd Bull**

The DR Angus program has been a very successful linebred program built from foundation and proven gene pools for function and adaptability. This herd is linebred to stack the genetic propensity and consistency that is abundant for maternal function

These cattle must perform in natural conditions without being pampered. They have been culled stringently and the best remain to be sold.

Cattle will be sold on a first-come basis and priced to sell in groups. The cattle are available for inspection by appointment. This would be a great opportunity as a starter group or to add another nucleus to an existing herd.

Brubaker Sales is the exclusive sales agent of these cattle, so call to discuss price and to make arrangements to view the cattle.
